

# Explorer John's Nature Worksheets

There are lots of different birds to see around the area but do you know what they all are? Explorer John has mixed up some birds and their names below. Can you match the photo with the name?

Sparrow

Magpie

Pheasant

Kestrel

Blackbird

Robin

Rook

Parrot

Which is the odd one out and why?

Count how many of each bird you see in a day. What other birds did you see? You can use the other side of this sheet to write down your answers.

I hope you enjoyed my bird puzzle.
